Kevin Shade is checking into it. If we do send a letter of credit from another site, I think we should redact the name of the party and the site.

**Subject:** Financial Assurance

Anne,

Phil Slowiak with International Paper called today & said they would like to change the financial assurance for San Jacinto to a Letter of Credit; he asked if we had a template for a Letter of Credit, who the beneficiary should be, who to address it to, standby trust (?) etc. He also said that different regions have different requirements for an LOC. Do you have any info on this?

I did a search & found the attached fact sheet and a LOC done last year.

Thanks,

Gary Miller
